

## LONG YEARS AGO

January 15, 1904

A fire-proof safe is the latest addition to the post office.

A good threshing record was made last week by J. Shantz. He threshed 4,000 bushels in 14½ hours.

The weather still keeps fine. It seems impossible for the thermometer to reach the zero mark.

F. Goard is erecting a large dwelling on Sunny Heights.

Cooper Bros. have just received a car load of Ontario apples in barrels.

C. Hebert's livery stable is being rapidly pushed ahead. It is expected to be under cover by the week end.

**DIDSBURY HOSPITAL BIRTHS**  
Born at the Didsbury hospital on Friday, January 11th, to Capt. and Mrs. B. Bosomworth of Carstairs, a son.

Born to Mr. and Mrs. Gus Bitter on Sunday, January 13, a daughter.

## 25 RINKS ENTERED IN LOCAL BONPSIEL NOW BEING PLAYED

## Two Main Competitions And a Consolation Event

The annual bonspiel of the Didsbury Curling Club commenced on Monday under ideal curling weather conditions, and 25 rinks have been entered in the two main competitions.

Outside rinks entered are: Bowden—Bob Henderson, Crossfield—Stevens, Wigle, Woods and Hall.

Carstairs—Arsty, Lee, Liesemer, Oide—Allen.

"Dad" Gillrie also has a rink entered in the 'spiel.

Fifteen local rinks are also entered, as follows, the first named being the skip:

L. Berscht, A. Reiber, Gium and Fox.

Calhoun, Parsons, Dippel and McNeil.

Cassidy, B. Gillrie, McCullough and Thompson.

Edler, Fleury, J. Morton, Tait, Hesleton, E. Watkin, W. Gillrie and A. Sherrick.

Krueger, Le Grande, Scown and Dupont.

Kaufman, G. Fulkert, Evans, Mayerechuk.

Law, Johnson, Glockzin, Worthington.

McCloy, Scott, E. Clarke, Cunningham.

Morris, P. Watkin, R. Youngs and Oke.

Klein, Noble, W. Fulkert, and Woods.

Platz, Walt, McCoy, Nowak, Paterson.

Reiber, Halliday, Wm. McCoy, Klinek.

Riesler, A.W. Brusso, Tuggle and Payne.

Sinclair, McFarquhar, Epp and Roberts.

Two main competitions are being played and for the unfortunate who lose out before reaching the semi-finals, there is a consolation.

Play in the main competitions of the bonspiel was not sufficiently advanced at press time to give a report on the games played.

Don't forget the annual meeting of the Didsbury Local, U.F.A., to be held in the Legion hall at 2 p.m. on Saturday, January 19th.

## DIDSBURY SENIOR HOCKEY TEAM WINS FROM OLDS 3-1

The local senior hockey team played at Olds last Tuesday night and took the measure of the Olds Agricultural School hockey team by a 3-1 score.

The goal getters for Didsbury were George Wilkins, who scored twice on assists from Bill Moon and Jimmy Glockzin. The second goal was scored by Jimmy Glockzin on a nice bit of play.

The olds lone tally was scored by Brathwaite in the third period. Credit is to be given to the Didsbury goal tender, Frank Moon, who did a great job in the nets.

## WESTERDALE WILLING WORKERS ORGANIZED

The Westerdale Ladies' Aid has disbanded, owing to church services being discontinued at that point.

A new organization has been formed under the name of Westerdale Willing Workers. Mrs. A. Buckley was chairman and Mrs. L. Jones secretary for the election of officers, as follows:

President, Mrs. W. Herbert.

1st Vice-Pres., Mrs. J. Cowie.

Secretary, Mrs. F. Jackson.

Treasurer, Mrs. H. Johnson.

Auditors: Mrs. A. Buckley and Mrs. R. Jackson.

Membership fees were set at 50¢.

The president called took charge of the remainder of the meeting at which the following arrangements were made:

That a program committee of four persons be appointed to draw up procedure of meetings, place of meetings, etc. Those appointed are:

Mrs. J. Cowie, Mrs. A. Buckley, Mrs. T. Bolton and Mrs. W. Herbert.

That a meeting be held on the second Tuesday of each month.

That a 10-cent charge be made for tea at all meetings.

That we have an Irish Stew Dinner, Bazaar and Program on March 15, charge to be 50¢ for adults, 25¢ for children under 12 years.

That we hold whist parties at various homes every two weeks with two members as hostesses.

Charge for whist 25¢. The first party to be held at the home of Mrs. W. Herbert January 15th at 8:30 p.m., with Mrs. F. Herbert as joint hostess.

The next regular meeting will be held February 12th at the home of Mrs. E. Nelson.

## NEW CHEVROLET ON DISPLAY AT THE ADSHEAD GARAGE

Ed Ford, proprietor of Adshead Garage, Didsbury, has on display a 1946 Sixtymaster Chevrolet sedan, which arrived on Monday.

The new car is greatly improved over the 1942 model and is finished in chrome-trim, as in pre-war vehicles.

## DIDSBURY HEALTH SOCIETY ANNUAL MEETING SAT'DAY

The annual meeting of the Didsbury Health Society was held in the Lions hall on Saturday afternoon, January 12th and a large number of members were present, but better interest could be shown in the work of the society, and it is hoped that a stronger membership can be secured this year.

Mr. Reist, as president, and Mr. Walter Herbert, were the retiring officers. In the election that followed, Mr. Reist was re-elected president, and Mr. Irwin Brower was elected as a new director.

Dr. Clarke gave a short talk on the work of the Society and was pleased with the conduct of its members, and a vote of thanks was tendered for his conscientious services.

Mr. Frank Jackson gave a resume of the operation of the new hospital and the good work that was being done. The Didsbury hospital, as well as the Olds hospital, is constantly filled to capacity, and Mr. Jackson asked that every assistance be given to this community enterprise.

The Didsbury Health Society is planning on a larger membership this coming year.

## REID CLARKE'S JERSEY HAS LIFE-TIME RECORD

N. Reid Clarke of Didsbury has received from the Canadian Jersey Cattle Association a Roll of Honor Certificate, with two seals, for the lifetime performance of his cow, "Walkie Gnosta's Dewbell." The certificate is awarded when a Jersey cow has produced a total of 4,000 pounds of butterfat, and each seal represents an increase of 500 lbs.

By the end of her last lactation, started when she was 14 years old, Dewbell had amassed a total of 5,323 pounds of fat from two and two-thirds tons of fat from 86,046 lbs. of milk. This is claimed to be the highest lifetime fat record for Jersey in the prairie provinces.

An examination of the cow's records gives an interesting illustration of the value of continuous testing on R.O.P. As a heifer, Dewbell showed little indication of making records that would be higher than the average for the herd, as the yield of fat in her first lactation was 399 pounds, or 144 per cent of the amount required for qualification. However, by the time she was 5 years old she had raised this to 733 pounds at that age.

The average of her first six lactations was 610 pounds of fat, or 168 per cent.

Dewbell was bought in 1930 as a calf from J.P. Davies, Walkie Dairies, Spokane, Wash. She has six qualified daughters in the Didsbury herd, each with high average fat production.

## MRS. MATILDA DAGEFORD BURIED AT WESTCOTT

Mrs. Matilda Dageford, 75, old timer of the Didsbury district, died at the home of her daughter, Mrs. Clara Stabenow, in Portland, Ore., Monday, January 7th.

Born in the United States, Mrs. Dageford had lived in the Didsbury district 43 years.

Surviving are four sons, Fred and August, both of Bell, Calif.; Herman, Didsbury; Gilbert, Portland, Ore.; and Mrs. E. E. Sherman, Gardena, Calif.; Mrs. J. Miller, Troutdale, Ore.; Mrs. W. Wiebold, and Mrs. J. Stabenow, both of Portland, Ore.

She was active in ladies aid and church work during her long residence in the Didsbury district, and took up this interest until she left Didsbury in May, 1944, to reside in the States.

Her husband, William, predeceased her Dec. 13, 1939.

Funeral services were held from St. Paul's Lutheran church, Westcott, Sunday, January 13th, at 2 p.m., with Rev. A.F. Reiner officiating.

Burialbearers were: Norman Tugle, Emmor Tugle, John Folkman, Henry Folkman, Herb Goetien and Carl Meyer.

Interment followed in the Westcott cemetery with Didsbury Funeral Home in charge of arrangements.

## SUCCESSFUL BONPSIEL OF LADIES' CURLING CLUB

Fifteen rinks were entered in the Didsbury Ladies' Curling Club bonspiel played at the local rink last week, January 11th and 12th, and there were two main events and a consolation.

The bonspiel was a decided success in every way, and the Club wish to thank the many members who donated and helped serve at the rink during the 'spiel.

Following are the winners on the various events:

**First Event**—1st, Calgary rink; 2nd, Inman; 3rd, Gillrie, Didsbury; 4th, Tuggle, Didsbury.

**Second Event**—1st, Alton, Didsbury; 2nd, Tuggle, Didsbury; 3rd, Morgan, Didsbury; 4th, Bennett, Olds.

**Consolation**—1st, Plaza, Didsbury; 2nd, Grande, Didsbury; 3rd, Foster, Carstairs; 4th, Crossfield.

## Didsbury Red Cross Has Successful Year

The annual meeting of the Didsbury branch of the Canadian Red Cross Society was held in the Lions hall on Friday evening, January 11 and a good turn-out of members from town and district was on hand to hear the annual reports of the president, secretary, and other officers, as well as conveners of the various committees.

President D. Whyte Smith was in the chair and reported that the Red Cross branch at Didsbury had one of the best years in its history.

Secretary W.A. Austin enlarged on the president's remarks and gave a comprehensive outline of the Society's work and stated that more articles had been turned in by the Women's War Workers than in any previous year, and for their efforts these women were to be highly commended.

Treasurer C.E. Reiber's report showed that Red Cross receipts for the year were \$66681.51, and at the present time the local branch had \$1739 in the bank with all accounts paid.

The reports given by the Conveners of the various committees showed that all branches of the society were active in 1945, which accounted for the splendid showing during the year.

The conveners of the committees giving these reports are:

Women's War Work—Mrs. C. S. Mortimer.

Purchasing—Mrs. R. Barrett.

Entertainment—W.W. Gillrie.

Tea—Mrs. J.L. Clarke.

Surgical—Mrs. W.W. Gillrie.

Packing and Inspection—Mrs. W. A. Austin.

Red Cross Committee Room—Mrs. L.J. Wrigglesworth.

Officers elected for the ensuing year were as follows:

President—Rev. D. Whyte Smith.

Secretary—W.A. Austin.

Treasurer—C.E. Reiber.

Vice President—West H. Morgan; East E. Cogswell; Town E.J. Rouleau.

Auditor—C.F. Nicholl.

Executive—East Mrs. W.E. Stiles; Ken Burns and E. Cullen.

West Mrs. Geo. Youngs, Mrs. A. L. Hoag, W.H. Davies and Jack Robertson.

Town: Mrs. H. Bowman, Mrs. R. Eckel, H. Lynch-Staunton and S.J. Gilson.

Conveners of Committees: Same as last year, and listed above.

The secretary reported that the new Red Cross Crippled Children's Hospital, to be built in Calgary, had been financed, but money would be needed to furnish the building and the Didsbury branch decided to donate \$1000.00 to this worthy cause.

A hospital visiting committee was added to the Society's activities and will consist of: Mr. A.W. Austin, Mr. H. Bowman, Mrs. Austin, Mrs. A.L. Hoag and Mrs. Ruth Eckel.

At the close of the meeting all Women War Workers of the Red Cross were given a sterling silver badge, in recognition of their services, and these badges will be given to all other workers in the district as they are contacted.

At the close of the meeting the gentlemen present served lunch to the ladies.

## The F.A.O. And The Future

POST-WAR PROBLEMS are of such great magnitude that they cannot be speedily solved, and to many it appears the world is going to be very slow in emerging from the terrible effects of the Second World War. One of the first groups to formulate plans for a better future for themselves and for others was the Food and Agriculture Organization of the United Nations. Since the inaugural meeting of that body in Quebec City in the Fall, there has been continued interest in the program outlined for the improvement of conditions for both farmers and urban workers. Delegates from more than forty nations who attended the meetings, returned to their homes optimistic for the future of the organization, but aware also of the tremendous tasks which lay ahead if their plans are to materialize.

## Director Hopes For Success

Sir John Boyd Orr, famous Scottish nutritionalist, who was elected director general of the organization is very hopeful of the success of the undertaking. He believes that if there is co-operation among all nations there is no reason why a world of plenty and equality should be difficult to achieve. He is of the opinion that plenty and equality should be the basic essentials for world survival; they should work under conditions as pleasant as those in any other industry, and that farmers should be provided with good roads, good schools for their children, power equipment and other amenities of modern living which many of them now do without. It is Sir John's belief that the world of tomorrow should bring happiness and prosperity to those who live on farms equal to that enjoyed by urban dwellers.

## Canada Would Share Benefits

Improved standards of nutrition throughout the world is one of the most important factors in the plans made at the F.A.O. conference. A rising of the general level of nutrition would not only be of great benefit to people everywhere from the point of view of health and welfare, but it would also mean greatly increased demands for the products of agriculture. As in many fields, rapid advances were made in the study of nutrition during the war, and wherever it has been possible to apply the results of these studies there has been an increase in the use of milk, cereal products, fruit and numerous other farm products. If the objective of the Food and Agriculture Organization in raising the standards of nutrition is even partially achieved, it will affect the agricultural industry everywhere. Referring to this matter in a recent address before the annual meeting of the Saskatchewan Co-operative Producers in Regina, Mr. George Mulvey, Chief Commissioner of the Canadian Wheat Board, said that Canada would share, perhaps more than any other country in the benefits of sound international co-operation.

## Registered Seed

Is The Highest Class Of Seed Available In Canada.

The highest class of seed available in Canada is Registered seed. When a farmer buys it, he has the assurance that it has been inspected, graded and sealed under standards set by registered seed established by the Dominion Department of Agriculture.

Only worthy varieties of seed are eligible for registration and they must be from seed crops which have passed rigid inspection for truthness to type and freedom from disease. What is more, Registered seed is required to be produced under conditions that will safeguard its protection.

Certified seed is also inspected, graded and sealed under Government standards, but the requirements for seed crops producing certified seed are less stringent than for those producing registered seed.

The class of seed known as Commercial carries no guarantee as to truthness to type. Those who sell it are responsible for its meeting the standards prescribed for commercial seed by Government regulations.

## Prairie Fruit

Now Has Been Demonstrated That Fruit Can Be Grown In West.

Enough has been done, mostly by individual effort to prove that edible fruits can be grown on the Western Prairies. Apples, crabapples, plums and several of the small fruits have been established for years in small orchards. Some are grown on official experimental farms, but many more have flourished and borne fruit in home gardens in both city and country.

Now something much bigger, holding more promise for the future, is afoot. An extensive and carefully planned plan for the breeding and testing of fruit for adaptability to the prairie soil has been presented to the Ottawa authorities by the Western Canadian Society of Horticulture. The program would embrace thirty fruit trees and shrubs and all varieties of the three Prairie Provinces.

**OIL STRIKE IN BRITAIN**  
Lancashire has been granted to a British company to prospect for petroleum in two areas in Lancashire, Yorkshire and Durham. Large quantities of oil have been found in the North Sea, but it was in Nottingham where the first yield from the wells is 370 tons of oil a day.

**UNDERGROUND RESERVOIR**  
Istanbul Turkey, has a huge underground reservoir, which supplies water to 600 dwellings and 60 wells. Three hundred expertly-carved columns support the roof of the reservoir.

## Price Control And Rationing Information

Q.—Will there be a change in coupon values now that the butter ration is cut from seven to six ounces per person per week?

A.—Each butter ration coupon will have the same value, which is half a pound. The reduction is effected by missing a butter ration coupon every fourth week.

Q.—I read in the daily paper that prunes and raisins will be more expensive. How much more will they cost me?

A.—Prices to consumers will be about 3½ cents per pound higher for raisins and prunes. There has been a substantial increase in California prices since 1941 and the decision has been taken to pass on a portion of this increase. This price increase applies only to the new crop.

Q.—Are meat pies rationed?

A.—Yes, meat pies are rationed and the ration value is sixteen ounces for one token.

Q.—Must a serviceman wait until he has been discharged before he is given his suit priority certificate?

A.—Priority suit purchase certificates are being issued to servicemen when they go on pre-discharge leave. This will enable them to order civilian suits a month before they are actually discharged.

Please send your questions or your request for the pamphlet "Consumer's News" or the Blue Book in which you keep track of your selling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

## Health Week

An Annual Event To Be Held In February, The Matters Of Health

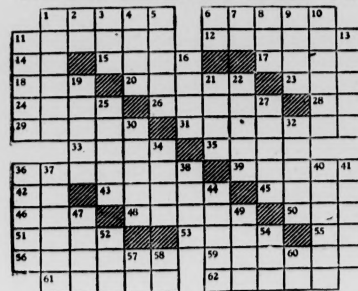

TORONTO.—National headquarters of the Health League of Canada announces that the week of February 3 will be observed as "Health Week" an annual event designed to impress upon Canadians the importance of all matters pertaining to national, community and personal health.

The League also announces its sponsorship of Canada's third annual "National Social Hygiene Day" which will be observed during February 4-5. This particular observance will mark the opening of another season's intensive anti-STD campaign, coinciding with similar observance in the United States.

**RADAR SCHOOL IN INDIA**  
One of the few such establishments in the Commonwealth outside the United Kingdom, a radar school in India instructs navy personnel in radar plotting and action information organization and trains radio mechanics in the maintenance of ship-borne radar equipment.

Gunpowder is a mixture of saltpetre, sulphur and charcoal.

ANSWER TO LAST WEEK'S PUZZLE

## Saskatchewan Oil

Possibilities Of Extensive Development In The Province

Possibilities of an extensive oil industry in Saskatchewan were outlined recently by F. H. Edmunds, professor of geology at the University of Saskatchewan. Prof. Edmunds said that three wells, National Grant, S.A.C. No. 1, and Community Services No. 2, have produced a total of 9,610 barrels of oil since April and the end of October, and a number of wildcats have been drilled to demonstrate the extent of the field in the Lloydminster area.

Indications pointed to considerable development during 1946, Prof. Edmunds said, adding that forty-nine wells have been drilled in the area since 1934.

Several wells encountered oil in drilling shortly after the discovery of oil, but at that time he best method of handling the wells for production could not be discovered and they were "not entirely satisfactory as producers," Prof. Edmunds said.

## For Medals And Coins

Canada Will Require Large Amount Of Silver In 1946

It is estimated that 500,000 to 750,000 ounces of silver will be required for medals to be struck for the Department of National Defence and that at least 2,000,000 ounces will be required for the minting of coin in 1946, according to the department of finance.

The maximum requirement for the other purposes, exclusive of the silver required by the mint, is 4,800,000 ounces. Wartime purposes and trade board has arranged to take this amount for major refiners. Actual domestic allocations are expected to be 4,150,000 ounces. This is to be used in the manufacture of sterling silver jewelry, flatware, anode for silver plating, silver nitrate for the photographic and chemical industries, alloys for brazing plates and silver wire for jewelry and other uses, in proportion to the purchases of refined silver in 1943.

## EVEN DISTRIBUTION

The Ottawa Journal says that from the great mass of figures presented to the food production conference one thing stands out—that Canadians are eating little more of almost everything than they did before the war, and this despite rationing. In other words, considering the country as a whole, rationing is no hardship but it is an effective means of even distribution.

The sun loses 4,000,000 tons of mass per second, a speck of dust in relation to its total mass of two billion billion tons.

## Nasal Irritation

Mentholatum Clear Closed Nostrils

MENTHOLATUM COMFORT BALLY

## Here's Quick Relief from

SINUS PAIN

## 3-Purpose Medicine Helps Clear Out Congested Sinus Areas

ONE best way to get relief from congested sinus pain is to clear congestion from nasal passages and give sinuses a chance to drain. A few drops of Vicks Vapo-Nol in each nostril is usually enough to bring this comforting relief.

**3-Purpose Medicine**... Vapo-Nol is successful because it does three important things: (1) shrinks swollen membranes of the nose; (2) helps

clear out pain-causing congestion and (3) soothes irritation. Many sinus sufferers say it's best relief they've found. Try it!

**VICKS VAPOR-NOL**

## Few Lose Rights

Small Number Of Naturalization Certificates Cancelled On Delinquency Grounds

Despite the fact 718 naturalization certificates were revoked in Canada during the war, only 75 were cancelled on grounds of delinquency to the king, Secretary of State Paul Martin disclosed in the commons. The information was sought by Angus Macmillan (C.C.F. - Vancouver East).

Majority of the certificates were revoked because the holders had been absent from Canada or other British countries for a period exceeding seven years.

Of the 75 certificates cancelled 45 were held by persons of German extraction. The remainder were: Japanese 10; Italian 7; Austrian 4; Danish 2; Polish 2; Czechoslovak 2; Hungarian 1; Swiss 1 and Finnish 1.

Seven of the 45 ex-Germans whose certificates were revoked on grounds of delinquency, were sent back to Germany in November, 1944. The certificate of one former Italian was revoked, while he was in Italy, and the certificate of an ex-Czechoslovakian was revoked when he was discovered to be a German prisoner of war in the United States.

Immigration authorities are giving consideration to the deporting of other people whose naturalization certificates were cancelled on delinquency grounds.

## Conservation Paid

General Taxi Driver Benefitted Under Will Of Wealthy Patron

Taxicab drivers are reportedly grateful, according to legend, to a recently deceased man, but ordinarily the talk is thrown in with spontaneity, generosity as merely a part of the fare. Cubby John J. Brophy, aged 46, of East Orange, N.J., however, has faced better than most and is now a conservation beneficiary of a life income variously estimated at \$12,000 to \$20,000 a year. This will receive from the will of a died testator, Capt. Ruppert, who died Sept. 16, 1944, and who had ridden for years in Brophy's cab, enjoying his conversations on football, boxing and baseball as a welcome relief, apparently, from the more elevated talk of other friends on art, music and business.

In a photograph picture we get of Mr. Brophy and his bachelor passenger, who would occasionally stop by at the backseat for a little chat, and sometimes takes his driver to the fights with him at Madison Square Garden. Later Brophy went to war, and was in an amphibious landing of the Sixth Army in Italy when Mr. Ruppert died. But he had not been forgotten—New York Times.

## Her Sight Restored

Vancouver Girl Recently Regained Her Power Of Vision

It seemed like a miracle when sight was restored to Bernice Biggs, 23½ West Sixth. But it wasn't a miracle. After 17 years in darkness, this Vancouver girl recently regained the power of vision because of newly won scientific skill in transplanting the cornea.

Bernice is only one of an especially fortunate one of an estimated 15,000 people on this continent who suffer from the kind of visual impairment which can be cured by corneal transplant. Research is speeding the day when all of them may be released from their prison of darkness—Vancouver Sun.

## HAD MANY HANDSHIPS

Stalin is 65 years old, of peasant birth. He became a professional revolutionary early in life and underwent many hardships during a career which brought him to his present position of power in Europe. His passing would bring changes in Russia. Whether there would be in the direction of more amicable world relations cannot be predicted—Sydney Post-Record.

Among the thousands of new synthetic chemicals from petroleum, one that makes pineapples ripen faster.

## Health Survey

Co-operation Is Promised In School Health Study

The recently-established National Committee for School Health Research whose aim will be the investigation of all phases of the health of school children, will receive co-operation of the Saskatchewan Department of Public Health and Education. It has been promised following a recent conference in Regina with Dr. A. L. Phillips, Toronto, who will direct the study.

The Saskatchewan sub-committee will be made up of the following members of the Health and Education Departments: Henry Janzen, director of curricula; Christian Smith, director of health education; Capt. G. S. Phillips, R.C.A.M., director of V.D. control; and Miss Elizabeth Smith, R.N., director of public health nursing. Dr. S. R. Laycock, professor of psychology, University of Saskatchewan, will be a consultant to the committee.

The National Committee was set up by the Canadian-Newfoundland Education Association and the Canadian Public Health Association. It has received a donation of \$10,000 to finance the undertaking during the year.

The committee, assisted by provincial sub-committees, will make a general survey of conditions from coast to coast.

## GEMS OF THOUGHT

TODAY

Out of Eternity the new day is born; Into Eternity at night will return.

— Thomas Carlyle

Look upon every day as the whole of life, not merely as a section; and enjoy and improve the present without wishing, through haste, to rush on to another.

To those leaning on the sustaining infinite, today is big with blessings. — Mary Baker Eddy.

One of the illusions is that the present hour is not the critical decision hour. — Emerson.

The present moment is all we can call our own for works of mercy, of righteous dealing, and of family tenderness. — George Eliot.

Build today, then, strong and sure. We cannot build a single base; And according and secure. Shall tomorrow find his place. — Longfellow.

## CANADA'S SALMON CATCH

A substantial increase in salmon caught by British Columbia fishermen for canning was recorded in 1945 compared with 1944. Final figures for the 1945 canned salmon pack were 1,737,575 cases compared with 1,697,557 in 1944 and 1,290,220 in 1943.

Auction rooms during 1943-44 did the largest business in history.

# "Operation Muskox" Will Be First Major Peacetime War Manoeuvre Made By Any Nation

(By G. H. Sullivan, B.U.P. Staff Correspondent)

A VAST defence plan to seal up the northern gateway into the North American continent and thereby the western hemisphere in which Canada is the pivot, is drawing comment from world capitals outside this continent has been noted.

In view of the close liaison between Canada and the United States through their joint defence boards President Truman's recent announcement of extensive defence strategy is linked with Canada's northward.

Last month the Canadian Department of National Defence announced a winter military operation in the north which is a sweep over 3,100 miles of so-called barren lands. "Operation Muskox" as it is known, will be one of the first major peacetime war manoeuvres by any nation of the world.

"Canada has become a cardinal factor in the defence of the western hemisphere, the northern and both as a staging route to the northern Pacific, and as a supply base through the oil refineries and pipe lines traced through what only five years ago was a wilderness," wrote R. W. Keyserling in a recent British United Press dispatch to Latin America.

If the atomic bomb is considered the weapon which has suddenly changed the military might in favor of the western allies, the Canadian also become the guardian of the most precious of military supplies, over which she in future must stand guard.

Having lost her former invulnerability, being drawn into the vortex of world events which have their pivotal points no longer in Europe, "Warsaw or Prague, in Rome or Berlin, in Bucharest or Tokyo, but where developments will hinge on a new balance of forces between Washington, Moscow and London, Canadians have to re-orient their thinking."

The operation was regarded abroad as plain recognition that, firstly, it was a joint Canada-United States project and, secondly, it was an exploratory defence measure for future security against the only power which today could result in the capability and the desired desire for a blow against the western hemisphere.

Airfields on the new line of communications from Edmonton along the air staging route to Kiska and Attu, the American end of the Kurile Islands only 700 miles away from Shimushu and Paramushiro, now in Soviet hands.

When Soviet fleets seven years ago made a non-stop flight from the north and into the northwestern United States, they charted the strategic routes of the future. And "Operation Muskox" is the primary chart and document a defence against a great European or Asiatic power which might strike suddenly and without warning from the western hemisphere. With the defeat of Japan and Germany, Soviet Russia is the only present-day power capable of such a blow.

The shortest way from Russia to New York or Washington or the great industrial centres of Canada and the United States is over the North Circle route. Soviet fleets already have achieved most of the flight in a 7,000 mile non-stop lap. American fleets have covered the distance in an 8,000 mile flight.

Official statements so far have merely indicated recognition of the need for a new defence strategy. For example, Russian Ambassador to Canada G. M. Zorubkin, speaking in Vancouver, urged that there is every reason for cordial relations between Canada and Russia, and invited a Canadian official to visit the Soviet.

It was recognized that "Operation Muskox" is being undertaken with the full understanding of Great Britain, and actually at the behest of the United States to fulfill the part of mutual defence made by Prime Minister Mackenzie King and President Roosevelt in 1938 and solidified in the early days of the war.

What struck observers about the sober and modest announcement of "Operation Muskox", scheduled to begin next February, was that it merely said the army force will operate westward from Fort Churchill to test out Canadian-made armored reconnaissance with tracked trailers and to be in teamwork with Royal Canadian Air Force planes. The operation, it was said, would "supplement" previous findings and test the feasibility of overland vehicles. But snow-travel equipment has been known and tested for years, and such flights have been made in conditions northward to Alaska, in normal commercial operation undertaken as quickly as flights from one lighted airfield to another.

"Operation Muskox" therefore became in the minds of experienced observers an international gesture targeted squarely at the future.

Skeleton forces were sent from bases, which have to be manned. Moreover, as one ostensible purpose is to test the dropping of ground supplies, and as various types of equipment are to

be tested, it has been foreseen that the ultimate force to be concerned will run into the thousands.

Experiences of the Royal Canadian Mounted Police and the old-time bush trails, which were light gradients of the World War I presumably will be used in the tests. The Arctic is old ground to the R.C.M.P., who for two generations have covered all parts of it.

The trek is scheduled to take 31 days, beginning from Churchill, and touching at Repulse Point, Baker Lake, Perry River, Cambridge Bay, Denham Bay, Cormorant, Port Harrison, Port Norman, Port Simpson, Fort Nelson, Dawson Creek and Edmonton.

While the northern manoeuvres are recognized as a matter of international defence policy affecting every country in the western hemisphere, it was foreseen that the actual Canada-United States liaison will be through the joint defence board. On this board Canada's representative is a war-scientist, Gen. A. C. L. MacNaughton, formerly commander of the Canadian Army Overseas, later national defence minister. MacNaughton for several years before the war headed the National Research Council, which played a pioneer part in the atomic research that culminated in the production of the atomic bomb.

This new relation to the world for Canada was developed in air science and in the atomic research laboratories. Air science for many years has mastered the technique of polar and Canadian Arctic flying. Atomic research did the rest of the grim job of desolating Canada.

## Universities Filled

Many Servicemen And Women Have Enrolled In Various Classes

Demand for higher education by returned servicemen and women has swelled university enrolment in Canada to proportions so great that shortages of living accommodation, classroom space, food supply and textbooks have become critical in many university cities.

A survey by The Canadian Press found between 15,000 and 20,000 veterans entering or re-entering college under the veterans' re-establishment program in the current academic year. In addition, a new semester for servicemen is scheduled to start in January at many universities.

Classroom facilities have been doubled and trebled. Additional instructors have been appointed. Hundreds of student housing units and libraries have been built to meet the demand. Trailer camps and other temporary shelters have sprung up overnight.

Engineering, medicine, commerce and law are the most popular choices of former servicemen, the demand for training in agriculture following close behind.

Universities of Manitoba and Saskatchewan have been able to cope with increased enrolment, while the most serious shortage at the University of Alberta is housing. Manitoba now has 4,300 students, compared with 2,700 in 1945. At Saskatchewan, attendance jumped from 1,800 to 2,800.

## Will Lower Cost

British Engineers Have System For Sound-Anti-Sound Television

British research engineers claim to have won the race for sound-and-anti-sound television by obtaining the need for duplicate transmitters and receivers for sound.

Both now can be operated on the same wave length, superimposed one on the other like the sound track of a sound film. The engineers estimate this development will cheapen and improve radio and television.

The same system will exploit color television since color signals, too, can be superimposed.

D. I. T. has a six-year-old research physicist employed by a radio manufacturing firm, made the discovery and has worked on it with 12 assistants for six months.

## NO DOUBT HE'S RIGHT

A Scottish scientist is in the news with the bold assertion that he couldn't be disintegrated by an atomic bomb. Having eaten bogies and lived to tell the tale, he has doubtless been on many occasions it would appear that the fellow has reasonable grounds for this feeling of indestructibility, says the Ottawa Citizen.

Rodeo is a Spanish word and means "round-up." It is pronounced ro-dayo.

**RUSSIA TO TOP IN ATOM**—Dr. Irving Langmuir, Nobel prize physicist, and a research director of General Electric in Schenectady, told a U.S. Senate committee that Russia could gain world supremacy in atom bombs in three years. He said a crisis in atomic energy development can be expected in 10 to 20 years.

## Needs No Pilot

Radio-Controlled Fighter Plane Demonstrated By United States Navy

The U.S. navy has demonstrated its latest developments in radio-controlled aircraft—a pilotless fighter plane and a jet-propelled drone with a speed of 600 miles an hour.

Bear Adm. H. B. Salada, chief of the bureau of aeronautics, said at an afternoon demonstration of the crafts, that combined with radar, influence fuses and atomic power they might revolutionize techniques of national defence and methods of preserving the peace.

He warned that the scientific knowledge on which the aircraft are based is not an American monopoly and that the extent to which they can be developed depends on the amount of money given for research.

The immediate application of the pilotless fighter, the "Ghost Helicopter," as a target for the heavy anti-aircraft guns of the fleet, but its greatest significance lies in the future. The plane lands and takes off by ground radio control and is recovered in the air by a mother plane, another fighter.

The jet drone, still in the experimental stage, is already regarded as a formidable sparring partner for fighter pilots and anti-aircraft gunners. The drone is launched in the air by a PBY flying boat and is controlled by a fighter plane. The drone has no landing gear and is brought down by a parachute which trips automatically by the fighter pilot controlling it.

Classroom facilities have been doubled and trebled. Additional instructors have been appointed. Hundreds of student housing units and libraries have been built to meet the demand. Trailer camps and other temporary shelters have sprung up overnight.

Engineering, medicine, commerce and law are the most popular choices of former servicemen, the demand for training in agriculture following close behind.

Universities of Manitoba and Saskatchewan have been able to cope with increased enrolment, while the most serious shortage at the University of Alberta is housing. Manitoba now has 4,300 students, compared with 2,700 in 1945. At Saskatchewan, attendance jumped from 1,800 to 2,800.

## Future Of Television

Whole British Empire May Be Linked Up By Programs

Maurice Gorham, who once saw life from behind a reporters' notebook, now looks at it through the television eye of the television transmitter. One time a reporter on the old Westminster Gazette (defunct), then editor of the BBC's Radio Times, he is now in charge of the BBC's television service responding next spring.

For the last six months Mr. Gorham has been visiting various parts of the early British Empire. He is in charge of the BBC's film program. Formerly he was chief of special broadcasts to the forces overseas.

Discussing the future of television Mr. Gorham said: "The time is not far off when the whole of the British Empire will be linked by television programs. Before the war a picture television in England was picked up in New York. The possibilities of the future are illimitable."

Perhaps because of his newspaper training, Mr. Gorham plans to concentrate on big news events in the future, such as the Derby and the Oxford and Cambridge boat race, and on topical happenings outside the studio.

"We shall specialize in broadcasting of actual events rather than in studio dramatizations and movie reels which can be had without the aid of television," he said.

Mr. Gorham pointed out that war-time researches have brought perfection in television transmission closer, but for the present transmission will have to be limited to the capacity of pre-war receivers working on 405 light lines. Ultimately the density of lines will be stepped up to 1,000 lines.

For test purposes "still" pictures are to be radiated from Alexandria, for the assistance of many factors and viewers renovating pre-war apparatus.

Of television broadcasting in Canada and the United States, he says: "The longest known transmission range for good reception is 10 miles, and Britain is obviously better adapted to these conditions. But ultimately I believe all countries will be linked by television."

## The Emperor's Horse

Whitish White Arabian Is Now The Property Of American Lieutenant

The most controversial horse in Japan, White Frost, described as a "white Arabian," is now the property of the United States as the property of an American lieutenant.

The Japanese, facing association with the United States, have been forced to relinquish the horse, which is named "White Arabian" to Lieut. Dick Ryan, who discovered him in isolated but elaborate stables.

A change in army regulations regarding pets will make it possible for the lieutenant to take White Frost to the States, where he plans to exhibit the horse at veterans' hospitals and charitable events.

Classroom facilities have been doubled and trebled. Additional instructors have been appointed. Hundreds of student housing units and libraries have been built to meet the demand. Trailer camps and other temporary shelters have sprung up overnight.

Engineering, medicine, commerce and law are the most popular choices of former servicemen, the demand for training in agriculture following close behind.

# Northern Route To Churchill Would Save Prairie Farmers Much Money On Grain Shipments

(Walter Anderson in The Ottawa Journal)

IF GOVERNMENT plans to open a northern sea route through Port Churchill, Manitoba, are brought to a successful conclusion, Canada is going to have a booming seaport on Hudson Bay, a thousand miles north of Winnipeg. Freight of western grain through Port Churchill may save prairie farmers up to four and a half cents a bushel on produce now being shipped to feed starving Europe.

Churchill, which only a few years ago consisted of a battered fur post, shacks and a Government radio station, is already beginning to show signs of modernization. It is the site of perhaps the largest grain elevator in the Dominion, and has a modern 30,000-ton airport built by the U.S. Army to guard against possible invasion from the Arctic. At least four radio stations are on the air in the various Government services. Magnetic earth currents will be measured by a party of scientists, and there is a daily weather report being wired to Ottawa.

The town has a population of from 100 to two hundred whites and a generous quota of half-breed Cree Indians. Living quarters run from rough wooden shacks, chimed against the driving Arctic gales, to a modern brick railway station with living quarters attached. Churchill also boasts a hotel, a restaurant and a grocery store.

Two grocery stores supply the populace with foodstuffs and take care of the local fur trade. There is a laundry, run by a Norwegian sailor, that does a pretty good business with National Harbor Board employees. Groceries are not above the ceiling price and most types of goods are obtainable. Fresh meat, however, is quite a problem.

Supplies are freighted in across the barren lands by the weekly train from Hudson Bay. No matter how hard the wind blows or how far below zero the temperature is, that train always gets through. There has only been one marked occasion in years that it did not arrive. At that time a blizzard raged for three weeks in the month of May. The train reached a velocity of over 100 m.p.h. and the train was completely buried.

The train is often forced to stop for hours to allow the melting of carboxin herds during their semi-annual migration to Winter and Summer feeding grounds. The animals, which are called muskoxen, which are their namesake. Besides being delicious for human consumption, carboxin meat makes excellent food for dogs and sled dogs, which keeps a team of muskoxen always on the loose, ready to attack any intruder who roams the tundra during Spring and Fall. It is merely a matter of firing into a solid wall of plodding animals and they are almost certain to drop one or two dead. But for Government restrictions limiting the individual hunter to two muskoxen, the muskoxen are harvested in the same proportions as the slaughter of buffalo at one time upon our western plains.

Every trapper keeps from six to twelve husky dogs. In addition to carboxin meat the animals are kept nourished by feeding them on white wolf flesh. The wolves run in packs of about 10 to 15, and the pack of the Hudson Bay and Churchill River. When a school is sighted they are pursued by two hunters in a fast motor boat. As they are surrounded the muskoxen are harrowed by one man in the bow. This shows the whale down sufficiently for it to be shot and the carcass reared up to prevent the whale's body from sinking, an oil drum is attached to the harpoon line and is thrown overboard the moment the whale is landed. Whaling is considered a fast and thrilling sport.

I will only touch briefly upon the lives of the inhabitants of this out-post town. They are little different from Joe Smith or Mary Jones who live in our civilized communities and their ideas of relaxation is akin to that of all people who are forced to lead a life where entertainment depends entirely upon individual initiative.

The U.S. Army supplied a weekly movie to civilians, but now that has gone. The annual visit of R.M.S. Nasopuk on her ten thousand ton Arctic cargo ship is perhaps the main occasion on which a dance can be organized. Even then men far outnumber women and competition is keen.

For the most part cards and phonograph records supply the bulk of all relaxation. There is a tavern for men who like the occasional drink of beer and women are not admitted.

Medical facilities so far are inadequate. A doctor is employed by the local harbor board for the summer months, but the hospital is closed during the winter. Last winter the doctor, who had been seriously ill from a ruptured appendix. Her life was probably saved by an Army surgeon who was stationed at the Arctic and who had been sent to Churchill. That surgeon, who was sent to Churchill, died on his way back and the higher health officer will soon be going home.

Tuberculosis is prevalent among the Indians who live in the out-post, but the black cat in the can, unheated shacks, firewood is unobtainable because of the lack of timber, and coal is too expensive for the natives to acquire.

The type of mosquito net to carry malaria here is to be found in Churchill. Strangely enough one case of this tropical ailment did develop during the past summer but it was a recurrence of the disease, contracted when the victim was in the tropics.

Indians are what tell us the exact position of the black cat in the can, unheated shacks, firewood is unobtainable because of the lack of timber, and coal is too expensive for the natives to acquire.

## Life In Stockholm

Is Gay And Colorful But Everything Is Very Expensive

Neatly kept streets, well-dressed citizens, many limousines and luxurious rich show-window displays, lively restaurants, shows, and bright lights along a half-dozen miniature Broadway all add up to the impression that Stockholm is a vast museum where the amenities of twentieth-century civilization have been preserved.

The only catch is that it is an expensive museum—even if you do not indulge in champagne at \$15 to \$18 for a bottle, oysters at 50 cents each, and caviar at \$2 a spoonful. Rates for first-class hotels, assuming you can get in, run from \$5 to \$7 a day for a room and bath, and \$15 to \$25 for suites. But there is also a \$5 to \$25 per cent service charge in lieu of the tips that you pay anywhere.

In a restaurant a head waiter will soon stare you into disbelieving the \$1 menu and gratifyingly taking the \$1 one or the a carte bill of fare, where no one except perhaps bread and butter is listed at less than \$2.

Taxis are not expensive—you can ride circle for the city for \$1. But shopping is \$5 neckties and \$10 shirts, for example. A woman's dress worth wearing is \$100 and up.

Nonetheless, Stockholm's look healthy, clean, and well-dressed. The snow is not that they are all millionaires but that the majority eat the plainest food at home, preferring to spend the bulk of their money elsewhere. Swedish girls, even when men save their nickels assiduously to invest in clothes. The result is that they look astonishingly smart, although perhaps not as smart on the average as Parisiennes. But what they lack in chic they make up in physique. Ingrid Bergman and Greta Garbo are a time a dozen in these parts.—Newsweek.

## Network For Linens

7255

by Alice Brooks

Outback flowers on your linen is necessary, that linen is well-tasting! Easy to do, it adds distinction to all plain linens.

Do these methods of fascinating cut-work or just plain stitching. Pattern 7255 has transfer for 16 motifs 1 1/2 x 1 1/2, 1 1/2 x 1 1/2, 1 1/2 x 1 1/2.

To obtain this pattern send twenty cents in coins (stamps cannot be accepted) to the National Department, Winnipeg Newspaper Union, 174 McDermott Avenue E., Winnipeg, Man. Be sure to include your Name, Address and Pattern Number.

OLD WHEAT GERMINATES  
Grains of wheat buried with an Egyptian mummy grew well when planted after lying dormant for two thousand years. In a small way, experiments in the U.S.A. have shown that when forty-year-old seeds were sown, half of them germinated.

Indians are what tell us the exact position of the black cat in the can, unheated shacks, firewood is unobtainable because of the lack of timber, and coal is too expensive for the natives to acquire.

ED. J. ROULEAU, Editor &amp; Publisher

ALBERTA TUBERCULOSIS ASSOCIATION  
DOING EXCELLENT WORK

A recent report issued by the Alberta Tuberculosis Association shows that to date the mobile chest X-ray units have X-rayed 164,594 people in the province. Out of this number there were found 422 active cases of T.B.; 2,155 inactive cases, and 4,368 persons examined had other abnormalities.

While the percentage of cases is small, it must be realized that persons with tuberculosis may spread the disease to others upon coming in contact with it, and in time tuberculosis could be spread over the province at an alarming rate.

It is with this thought in mind that the Alberta Tuberculosis Association is endeavoring to stamp out the disease now and avoid serious spread of tuberculosis in the years to come. To take care of the work the Association set a figure of \$90,000, the minimum amount required to carry out its extensive campaign in 1946. To date the Association has collected over \$67,000 by the sale of T. B. Christmas Seals. This sum is gradually being increased as more and more persons, who received the seals, are sending in their contribution.

Help prevent the spread of Tuberculosis by supporting the active campaign of the Alberta Tuberculosis Association. Send in your donation now.

## THE ATTAINMENT OF ABUNDANCE

The truth remains today nothing stands in the way to the attainment of universal freedom and abundance but mental tangles, egocentric preoccupations, obsessions, misconceived phrases, bad habits of thought, subconscious fears and dreads and plain dishonesty in people's minds—and especially in the minds of those in key positions. That universal freedom and abundance dangles within reach of us and is not achieved, and we who are Citizens of the Future wander about this present scene like passengers on a ship overdue, in plain sight of a port which only some disorder in the chart room prevents us from entering.—H. G. Wells.

## BERGEN NEWS NOTES

Mrs. Bill Gamble is visiting her sister, Mrs. Eric Lyle.

Blair and Ronald Lyle are expected home on the next train.

Andy McCormick and Trygve Haug are among the arrivals from overseas.

Some of the mill men who purchased the Stevens' mill brought their wives and children to live in Niche Valley.

Howard Lachman, Leonard Mikelberg and Alvin Gamble each travelled over the Little Red River for a load of bundles.

George Admussen has a place with the Lyle-Moines saw mill. Wooden money is being used as a medium of exchange these days.

## NOTES FROM THE EAST

Among those attending the 37th annual U.F.A. Convention held in Calgary at the Palliser Hotel from Jan. 5th to 11th inclusive, were Mr. Kenneth Burns, delegate, and visitors, Mrs. Ed Stiles and Mrs. W. H. Coates. All report a very instructive and enjoyable week.

Mr. and Mrs. Alf Thompson and Otto Bittner motored to Calgary Thursday and returned Saturday. Otto has been having trouble with his knee doing out of joint and the chiropractor informed him that it had not been set properly, so Mr. Bittner had his knee set again, and here's hoping this time it will be a success.

Dave Grant has been holidaying in the district at the home of Mr. and Mrs. Walter McCulloch and brothers since Christmas. Dave expects to return to Fort McMurray this week. Nice seeing you, Scotty. Call again as soon as you can.

Mrs. Bert Pross spent a few days visiting this week with Mr. and Mrs. Pete Schumaker.

Mr. and Mrs. Schumaker and Mrs. Pross spent an evening of cards with Mrs. Dowell and Fred Metz.

We were sorry to learn that little Mary Pace suffered an attack of appendicitis the day of Dick's wedding dance. She was operated on that evening and Mrs. Pace was unable to attend the wedding dance of her son, but we are glad to know Mary is doing well.

The neighbors and friends of Mr. and Mrs. Dick Pace wish them success and happiness.

As the Burnside school has been unable to secure a teacher for the

month of January it has been necessary for pupils to attend the Bancroft school. Evelyn Dowell is boarding with Mrs. B.A. Woods until February.

Miss Claire Woods was a dinner guest at the home of her sister and family, Mr. and Mrs. Lynn Hunsperger, on Saturday.

Fred's car refused to go this week leaving him in the snow to walk. However he says he'll soon have it "perking" again. It's a long road from Fred's to Didsbury on "shanks' pence".

Mr. and Mrs. Louis Kohut of Calgary were visitors at their sons' homes in the Mountain View district.

Miss Doris St. Claire of Calgary spent the week end at the home of her parents, Mr. and Mrs. E. St. Claire.

Watch for the date of the Moccasin Dance to be held on the Burn's lake north of the Jutland school in the near future.

Stanley Cowie has returned home and has been discharged. Stanley is married to Fred Metz's sister, and we would like to say welcome home Stan.

## WESTCOTT NEWS NOTES

So pleased to see Cpl. Alfred Baudistel again in our midst after having served for some time in the European war zone.

It was with profound sadness that this community learned of the passing at Portland, Ore. of a dear friend and neighbor, Mrs. William Dugardie. We wish to take this opportunity to extend our deepest sympathy to the bereaved.

Sorry to report that Mr. Fred Snyder suffered a relapse from his recent illness Sunday last and it was found necessary to remove him to hospital. Best wishes, Mr. Snyder, for a speedy and complete recovery.

Mrs. John Jacobson recently returned from her trip to British Columbia.

Mrs. O.T. Swanby was a Calgary visitor last Thursday.

We understand some very good hockey is being played on Herman Dugardie's rink, by various teams games have to be seen to be appreciated, for with country roads as they've been this winter it is really an effort for players to get on with the work as long as there is need for it. Lunch was served by the hostess, and it was

## NOTICE

TO PERSONS OTHER THAN RATEPAYERS  
RESIDING WITHIN THE BOUNDARIES OF  
THE DIDSBURY MUNICIPAL HOSPITAL  
DISTRICT NO. 33

Notice is hereby given that all persons other than ratepayers residing within the Didsbury Municipal Hospital District No. 33, being:

All of Township 30, Ranges 27, 28 and 29, west of the 4th Meridian, and Ranges 1, 2, 3 and 4, West of the 5th Meridian;

All of Township 31, Ranges 27, 28 and 29, west of the 4th Meridian, and Ranges 1, 2, 3 and 4, west of the 5th Meridian;

Sections 1 to 6 inclusive in Township 32, Ranges 27, 28 and 29, west of the 4th Meridian, and Range 1, west of the 5th Meridian;

Sections 1 to 12 inclusive in Township 32, Ranges 2, 3 and 4, west of the 5th Meridian;

The Town of Didsbury.

May take advantage of the \$1.00 per day public ward rate offered to ratepayers by paying in to the undersigned the sum of \$5.00 for a single person or \$10.00 for a family for the year 1946, said payment to be made not later than February 15th, 1946.

Didsbury Municipal Hospital District No. 33,

Per H. LYNCH-STANTON, secretary,  
Didsbury, Alberta

## NOTES FROM THE WEST

The Elkton Willing Workers met

Wednesday last at the home of Mrs. Campbell, when a comforter was tied for the Red Cross. It was decided to hold a series of whist drives, the first to be at the home of Mrs. J. Bagshaw. 215 articles of sewing were completed during the past year, including a baby's layette, comforters, diapers, vests, bloomers, skirts, blouses, boys' knickerbockers and girls' dresses, wash cloths, etc., and socks and sweaters were knitted. It was decided to carry on with the work as long as there is need for it. Lunch was served by the hostess, and it was

decided to hold the next meeting at the home of Mrs. Gillies Sr. on Wednesday, February 13th.

Mr. and Mrs. Campbell Sr. and Mr. and Mrs. Campbell Jr., Mr. and Mrs. J. Bagshaw, Mr. and Mrs. O. Thompson and Milton Russell played cards at the home of Mr. and Mrs. A.L. Hogg on Wednesday evening of last week.

Mr. Leslie Evans had a visit with his friend Jim Rutherford at Cremona on Sunday. These two boys went to the RCAF youth training school at Medicine Hat together, and to Manning Depot at Edmonton, and then parted, only to meet again outside a picture show in England. Rutherford is with the oil drilling outfit, now at Cremona.

## ST. HILDA'S CHAPTER ORDER OF EASTERN STAR INSTALS 1946 OFFICERS

Members and friends of St. Hilda's Chapter No. 27, Order of the Eastern Star, held an open installation of the new officers in the Masonic Hall on Tuesday evening, January 15th.

Sister Helen McGhee of Brooks, Past Grand Matron, acted as the installing officer, assisted by Bro. Chas. Stuart, Past Grand Patron. The new officers for the year 1946 are:

Worthy Matron—Sister Lillian Thomas.  
Worthy Patron—Bro. Geo. Parsons.  
Associate Matron—Sister E. Gar-

ner.  
Associate Patron—Bro. Harry Richardson.  
Secretary—Sister Mildred Lowrie.  
Treasurer—Sister E. Topley.  
Chaplain—Sister Bowman.

Conductress—Sister Rose Morris.  
Associate Conductress—Sister Joyce Morgan.  
Marshal—Sister Maude Lantz.

Organist—Sister K. Parsons.  
Flute—Sister Mary Knieser.  
Martha—Sister Frances Law.  
Fether—Sister Betty Bowman.  
Ruth—Sister Mary McCulloch.  
Ariad—Sister Ellen Richardson.  
Ward—Sister Helen Gilson.  
Sentinel—Bro. Ray Lantz.

Following the installation a delightful luncheon served to members and guests by the ladies of the Chapter.

## M.D. NEW BUILDING WITH SNOW PLOW IN OPERATION

The new bulldozer with snow-plow attachment, which was recently purchased by the Municipal Office of Mountain View, arrived last Friday and Saturday morning was out on the roads west of town, clearing off the snow. The new outfit is working over this week with Adam Kossuth in charge of the machine, which is doing excellent work in opening up and widening the drifted roads.

## HARVEY BURGESS BUYS VERMILION CARRIAGE

The deal was completed last week and by Harvey Burgess for the purchase of the carriage property of Vern Johnson, and the new proprietor has now taken control.

The business will be known as "Farmers' Service and Supply" and Vern Johnson will be retained on the staff to operate the shop.

Mr. Burgess plans to put in a stock of lumber and building supplies.

## \$51,000 PAID FOR HEREFORD BULL IS RECORD PRICE

George Boleyn of Toronto paid a world's record of \$51,000 recently for Del Zonta 1, a Hereford bull sold by W.A. Dehner Jr. ranch at Del Zonta, Alta. This was the record for beef cattle, was \$50,000 paid for each of two bulls sold at the Denver sale last January.

Del Zonta's bull was one of Canada's outstanding Hereford breeders and prominent in association work. He has visited the west and was one of Ontario's delegates to the national meeting in Calgary a few years ago.

## WM. C. ADAM, OLD TIMER OF DISTRICT, PASSES ON

William C. Adam, 85, died at the home of his daughter, Mrs. Florence Finlay in Didsbury on January 13, 1946.

Born in Embro, Ontario, October 21, 1857, Mr. Adam was united in marriage in 1882 to Miss Bessie Lee, to which union were born five children: Gordon, of Munson; Mabel (Mrs. C.E. Thompson) of St. John; New Brunswick; Florence (Mrs. William Finlay) of Jobba, Nigeria; West Africa; Roy of Didsbury; and Katie deceased. His wife preceded him in death 24 years ago.

Mr. Adam came to the west from Manitoba, Mich., in 1900 settling on a homestead west of town where he lived for many years. Besides his sons and daughters, Mr. Adam leaves many other relatives and many friends who shall miss him from their midst. He was for many years a loyal and faithful member of the M.B.C. church.

Funeral services were conducted from the M.B.C. church, Didsbury, on Wednesday, January 16, at 2:30 p.m. with the Rev. C.J. Hallman officiating. Interment followed in the Didsbury cemetery with Didsbury Funeral Home in charge of arrangements.

## SEE J.V. BERSCHT & SONS SALE AD ON PAGE 4 OF THIS ISSUE!

## HCLP

The trouble with most of those trick classified ads that you read is that you never hear the vital sound whether they are results. But here is one that did.

The employer had previously run a conventional ad in three Indianapolis newspapers for a week and only two applications came in, but neither was satisfactory. Then he inserted this.

"You can be cross-eyed, pigeon-toed, flat-footed and anemic—or you can be a ravishing beauty—all we want to know is, lady, can you sew and take shorthand? Age no important. 21 to 31. Ability, yes, you should have a little. Physical condition, strength enough to get out to the machine each week to collect \$25. Seriously, this is a very pleasant job with an established firm and now we're not kidding. But we hear from very pleased."

"I brought fifteen applications, reports 'Dintons' Ink' from which the employer was able to pick out the best stenographer needed. —Open Book."

## GOOD HERD MANAGEMENT PAYS BIG DIVIDENDS

A 100% calf crop for the past three years is the record of J.T. Holland of Fleet with his herd of 70 head of grade range cattle. Of even greater interest is the fact that this record has been obtained with the use of but one bull during the breeding season.

Mr. Holland, who by the way, is manager of the Cator-Coronation Live Stock Shipping Association, attributes this successful breeding record of good feeding and management practices, particularly the feeding of ample mineral, and the use of a good bull.

In this district where moisture is the main limiting factor to production, Mr. Holland rotates his pastures such that the cattle are used every other year. Ground limestone, bone meal and iodine are fed by the free choice method, and are before the herd from November to March. Emphasis is laid on the bull—a heavy muscled individual being used. The bull in use at the present time is a Bissel bred bull purchased at the Calgary Bull Sale this spring for \$670. This bull as a two-year old weighed about 1700 lbs.

## MIDGET HOCKEY TEAM WINS FROM CROSSFIELD

"Didsbury Lions" midget hockey team defeated Crossfield in a 3-2 overtime game at the local rink on Tuesday evening of this week. Down 2-0 at the end of the second period, the local boys came back stronger than ever. A quick goal by Barrett in the first five minutes and another by Baishaw from Renne tied up the score. In the first minute of overtime Irwin scored on a beautiful shot from far out to win the game for Didsbury.

These boys are all midget age, under 16 at November 1st, and they are developing into a real hockey team.

## MRS. BRUCE PARKER HEADS KNOX UNITED CHURCH W.A.

The annual meeting of the Senior W.A. of Knox United Church was held at the home of Mrs. W.W. Gillrie on Friday, January 4th. The following officers were elected for 1946:

President, Mrs. Bruce Parker.  
Vice-President, Mrs. Ruth Eckel.  
Secretary, Mrs. W.W. Gillrie.  
Treasurer, Mrs. Frank Stevens.

## ANNUAL MEETING OF JUNIOR W.A. KNOX UNITED CHURCH

The annual meeting of the Knox Junior W.A. was held at the home of Mrs. J. Garner on Tuesday, Dec. 11th, 1946 officers were elected as follows:

President, Mrs. M. Wood.  
Vice-President, Mrs. H. Wood.  
Sec. Treas., Mrs. V. Gillrie.  
The January meeting will be held at the home of Mrs. E. Waggon on Monday, January 28th, at 8 p.m.

## We Handle Seed Orders!

Pioneer Agents can advise as to the most suitable seed for your district and obtain it for you at cost.

Consult our agent in your district regarding seed and other general agricultural problems.

## PIONEER GRAIN COMPANY LIMITED

CARD OF THANKS  
The Citizens' Rehabilitation Committee tenders thanks and appreciation to everyone who contributed in making the recent Welcome Home party to the service personnel such a success. To the Pioneer for publicity, and to St. Mary's Circuit for making a special \$15.00 rent for the hall.

There will be a meeting of the Provinces in the Lions Hall on Wednesday, January 23rd between 4:30 and 5:30 p.m.

## M.B.C. CHURCH NOTES

A special illustrated lecture "The Tragedies and Triumphs of Life" will be presented by Rev. E. Richardson of Prairie Inst. Three Hills, on Saturday evening at 8 p.m.

Sunday at 7:45 p.m. Rev. Richardson, with a group of Gospel Singers, will be in charge of the service, under the auspices of the Young Peoples' Society.

You are invited to enjoy these services with us.

## STOCKYARD TRADING

As a protection to the buyer and seller of live stock, certain requirements are made with respect to trading in stockyards and public markets in Canada. Sales agencies and dealers must be bonded and must place funds received from the sale of live stock in a "Shippers' Trust Account. All records must be bona fide and open for inspection. Schedules of commissions and the charges are subject to official approval, as are also scales and weigh masters.

Stockyard proprietors are required to provide adequate accommodation and services as well as good feed at fair prices. An official representative of the Dominion Dept. of Agriculture is located at each of the eleven stockyards in Canada to administer the regulations and prepare regular market reports. Certain controls are also exercised over packers' yards in the case of live stock purchased by the packer direct from the country.

WORLD HAPPENINGS  
BRIEFLY TOLD

The Finnish government presented composer Jan Sibelius an annual pension of \$1,500 on his 80th birthday.

Mr. Setaiya Begun, Japanese Consul-General in Eire, was ordered from Tokyo recently to close his office in Dublin and return home.

The British admiralty and ministry of war transport have withdrawn all restrictions on publication of merchant shipping movements.

Britain and the United States have stepped up their coal shipments to France as a result of recent French protests, a government spokesman said.

LONDON.—The British government has paid \$2,164,000 war damage insurance claims totaling \$192,000,000 (\$884,000,000), the board of trade journal said.

A Japanese colonel testified that imperial army discipline was so strict that if his men had disobeyed his orders to bombard United States flyers they would have been executed.

The only woman news correspondent present at the signing of peace at Rheims that brought the European war to a close was Margaret Barker of The Canadian Press.

Boy Scout membership in Canada has reached the 100,000 figure, compared with 90,000 last year, R. C. Stevenson, chairman of the national executive of the Boy Scout Association, reported at Montreal.

The number of small business firms in the U.S. was reduced by nearly 20 per cent. during the war, reports Joseph K. Wexman, assistant in the study of small business, committee on economic development.

## Effects Were Fantastic

Scientist Tells How Rays From Atomic Bomb Affected Victims

A former University of Illinois scientist described how the fantastic effects of rays given off by atomic bombs killed Japanese weeks after the blasts which flattened Hiroshima and Nagasaki.

Dr. Philip Morrison, who helped assemble the bomb, said the rays strangely affected the blood and made the victims a prey to fatal infections. He said most persons within a mile of the bombs died quickly—either from the great heat of the blast or injuries suffered in demolished buildings.

Many who escaped death by blast or burn, Dr. Morrison said, "died from the effects of radiation, rays emitted in great number from the bomb at the instant of the explosion."

"This radiation affects the blood-forming tissues in the bone marrow and the whole function of the blood is impaired," he said.

"The blood does not coagulate, but oozes in many spots through the broken skin, and internally seeps into the cavities of the body. The white corpuscles which fight infection disappear."

Lack of these corpuscles permits infection to "prosper," Dr. Morrison said, "and the patient dies, usually two or three weeks after the exposure."

"I am not a medical man, but like all nuclear physicists I have studied this disease a little," Dr. Morrison said. "It is a hazard of our profession. With the atomic bomb it became endemic. War now can destroy not cities, but nations."

After describing the destruction wrought to Hiroshima, Dr. Morrison said it is probable that an atom-bombed western city "would be as badly damaged as a Japanese city, though it would look less wrecked from the air."

"In Japan the wreckage burned clean, in a western city, the rubble would stand in piles in the streets."

"But the city would be just as ruined, and the people of the city just as dead."

## Does Job Efficiently

British Force In Occupied Germany Has Best Administered Zone

It is an axiom that the most orderly and best-administered zone in Germany is the British. The British professional soldier takes to administration of an occupied country with a measure of objectivity. His habits of mind derive from an imperial tradition. To administer a subject people with paternal solicitude, to expatriate in an economic emergency, this is a way of life which comes instinctively to most Britons, and especially to the educated professional soldier in whose mind command is identical with responsibility for the welfare of those to whom it gives orders. These men can help looking after anyone whose life is placed in their hands. The job gets done, and the soldier is happy and efficient in doing it, Ottawa Journal.

## DIFFERS WHILY

The history of Italian painting centres about three cities: Florence, Siena and Venice and the kind of work produced in each differs widely according to native temperament and varying conditions of life.

Guam is the largest of the Mariana Islands.

G. W. ROGERS, M.A.

of the Division of Industrial Hygiene, Department of National Health and Welfare, Ottawa, who is on loan to the Saskatchewan Department of Public Health for the purpose of establishing a Division of Industrial Hygiene for the province. Ottawa has equipped a laboratory for his use in the Legislative Building, Regina.

## Industrial Hygiene

To Insure Working People Against Occupational Hazards

Establishment of a Division of Industrial Hygiene in the Saskatchewan Department of Public Health was announced by Hon. T. C. Douglas, Premier and minister of public health.

"The Department of National Health and Welfare is co-operating with us in the establishment of the new division by lending to the province the services of Mr. G. W. Rogers, M.A., of the Federal Department of Industrial Hygiene at Ottawa, and by equipping a laboratory for his use," Mr. Douglas said.

"The Division of Industrial Hygiene will be available for consultation with workers' management, unions and public health authorities on occupational health problems, and will be able to carry out the necessary chemical analysis and recommend proper measures for the control of dangerous substances encountered in industry," Mr. Douglas continued.

"Inquiries are invited. A great many of the substances used or handled in present-day industry, not excluding agriculture, are capable of injuring the health of people handling them. These substances may cause chronic injury, occasionally of a severe nature, or more frequently they may have effects that are apparently mild and often remain unrecognized. The latter kind of effect, due to its insipid character, may cause considerably more economic loss than the more spectacular injuries."

"It must be emphasized that in virtually all cases it is possible to take proper precautions first and insure the safety of persons who have to use any of these harmful materials. It is the intention of the Department, through the Division of Industrial Hygiene, to insure the safety of working people against any of the occupational hazards to which they are exposed."

Mr. Rogers is a native of Toronto. He entered the University of Toronto in 1923 with nationalistic intentions. He was a member of the 1927 in physics and chemistry and in 1928 received the M.A. degree in chemistry. In 1932 Mr. Rogers completed a special course in industrial hygiene at the Harvard School of Public Health under Prof. Philip Dinkler.

In January 1932 Mr. Rogers joined the industrial hygiene division of the department at Ottawa when the staff was expanded to discharge wartime responsibilities of the Federal Government in safeguarding the health of employees working in war plants.

In addition to factory inspection and laboratory determinations, of exposure of workers to harmful substances, Mr. Rogers completed during the last year a paper describing his work in methods of determining method alcohol vapor in air, and carried out research on a new method for the measurement of other solvent vapors in workshop atmospheres.

Last year Mr. Rogers was active in founding the Canadian Association of Scientific Workers and was first chairman of the Ottawa branch.

## Gets Empire Award

Creator Of "Herbie" Cartoons Has Been Decorated

W. G. (Ging) Coughlin, whose cartoons of "Herbie," the little Canadian sapper with a faculty for getting into trouble, were the delight of the Canadian army overseas, has been awarded the Military Medal by the Order of the British Empire. It was shown in a defence headquarters decorations list.

No citation was given but the award apparently was in recognition of C.S.M. Coughlin's work on the "Herbie" cartoons which appeared regularly in the Canadian army news paper, Maple Leaf. They showed "Herbie" in the Italian mud, in the invasion and in Germany and most of the time he was getting into one jam or another.

Joints made with animal glue have a tensile strength of more than 5,000 pounds per square inch, twice as strong as wood itself.

## Canada's Parks

Have Received High Praise In A Book Published In New York

Canada's National Parks in the Rocky and Selkirk Mountains have come in for some high praise in a book entitled "The Rocky Mountains" recently published by the Vanguard Press of New York. The author is Dr. Wallace W. Atwood, President of Clark University, Worcester, Massachusetts, well known outdoorsman, geographer, geologist and educator.

In part is written by Dr. Gordon Bates in a final summary of a chapter devoted largely to Canada's mountain playgrounds.

"The Canadian parks are remarkable in many respects. Those who would like to see how mountains are made, how they are broken and crushed as they move slowly upward, and in this case eastward, may see examples of these phenomena from the saddle, or from the seat of an open car. There is probably no inland body of water that surpasses, in beauty of setting, Lake Louise—seven miles into the mountains from Banff. There is no other place easily accessible in North America where large glaciers and a huge icefield can so readily be visited as in the region of Mt. Athabasca and the Columbia Icefield. These places are now within walking distance from points on the Jasper-Banff highway."

"There is more to see in these great reservations than anyone can easily see in the towns of the mountains. There are mountain peaks, structures, mountain flora, and mountain fauna. There is wild game in these parks, surpassing anything easily available to the lovers of the outdoors, who cannot organize great pack-train expeditions into wilderness regions. Here it is comparatively easy to see in their native haunts the Rocky Mountain goat, elk, moose, mule, deer, black bear, and grizzly bear; cougar, and coyote. The more hardy individuals who will spend a few days in the saddle and camp out in a wilderness region, may visit some of the most beautiful high-mountain country in the world, areas that cannot be seen from the roadways. They will have a series of 'close-up,' intimate experiences never to be forgotten."

Here is a fascinating description of the mountain parks that will be read by tens of thousands in all parts of the English speaking world, and which should do much to make better known many of the outstanding geological features of Canada's mountain playgrounds.

## NO PLACE LIKE HOME

Health  
LEAGUE  
OF  
CANADA  
+  
TOPICS  
OF  
VITAL  
INTERESTPASTEURIZATION CAMPAIGN  
NEEDS CITIZENS' HELP

If concrete results are to be expected in the current nation-wide campaign for compulsory pasteurization of milk, the average citizen must do something about it. Dr. Gordon Bates says in an editorial in the current issue of "Health," official magazine of the Health League of Canada, of which organization Dr. Bates is the general director.

The editorial urges all Canadian citizens in the eight provinces where pasteurization is not compulsory (all except Ontario) to write to the Health League for literature on the subject and for a copy of a resolution which can be submitted for the approval of any voluntary organizations to which they belong.

Dr. Bates emphasizes that if a sufficient number of citizens back the voluntary associations get behind the movement, members of provincial legislatures will know that their constituents really want some action.

"At today," the doctor admonishes, "Don't wait. Don't let it be on your conscience that you did nothing to save human life and did nothing."

Stating that the physicians of Canada desire Dominion-wide compulsory pasteurization legislation, but that there are only about 10,000 doctors in a population of 11,000,000, the editorial emphasizes it is up to the average citizen to say to the legislatures they have elected that such legislation is desirable.

## Was Great Sculptor

But Name Of Joseph Nollekins Is

The Canadian Press distributed a dispatch from London which told of the variety of things being advertised for in the newspapers. Among them was one asking for a book, "The Life and Times of Nollekins," and the Correspondent added the query "Who was he?"

His full name was Joseph Nollekins, and he was born in London in 1737. He achieved fame as a sculptor, and it is strange that his name is so little known today because he was the most noted sculptor of his time, and examples of his work are found in Westminster Abbey, St. George's Chapel in Windsor Castle, and in many other national shrines. He sculptured George III, and the Prince of Wales who became George IV, four Prime Ministers—the Duke of Wellington, Canning, Perceval, and Pitt, also Charles Fox; Lords Aberdeen, Castlereagh, Erskine, Eglarston and Liverpool; David Garrick the actor and Lawrence Sterne the author. He also created many beautiful groups.

Nollekins was noted for his miserly habits and died wealthy at the age of 86. St. Thomas Times-Journal.

There is the tradition that a deep-sea sailor was shipwrecked in the Thames. Late he also a U.S. airman who flew safely around the world was killed by a fall from his horse.

## REG'LAR FELLERS—Value Of An Education

"GOSH—I'D LOVE TO GO FISHIN' BUT I GOT TIG WORMS."

"I THINK I'M PROBABLY TH' ONLY MAN IN MY LIFE."

"I THINK I'M PROBABLY TH' ONLY MAN IN MY LIFE."

Weekly Ration Fashion  
for a single person

SUN.	MON.	TUES.	WED.	THU.	FRI.	SAT.
Breaded Veal Cutlet	Veal Stew	Parsley Omelet	Sausages	Lamb Chop	Broiled Fish	Meat Loaf
Group B	left-over	unrationed	Group D	Group C	unrationed	Group C
9 oz 3 tokens			5 oz 1 token	4 oz 1 token		3 1/2 lb 3 tokens

Even under meat rationing one can live alone—and like it, for the use of tokens is a boon to the single person. The one meat coupon valid each week is equivalent to eight tokens which enable the purchases to be varied throughout the week. Being on familiar terms with the Consumer Coupon Value Chart and the Coupon and Token Calculator which are available from your local Ration Board, will help you to obtain full ration value for the tokens expended. And with a little foresight, the single person's token budget can provide a meal for guests. This week's ration fashion suggests how this may be done.

Three tokens are ration exchange for a nine-ounce slice of veal steak or a pound of beef. This may be served to be breaded for Sunday dinner, as well as the basis for Monday's stew.

## A New Coventry

British City Bombed By Germans Will Be Rebuilt

COVENTRY, England. "Turned into a planner's paradise by German air raids which wiped out the city centre, 600-year-old Coventry intends to spend \$15,000,000 (\$37,500,000) to make itself a modern business centre."

Within a few weeks had designs for the Coventry program will be sent to London for government approval. When the work is finished at a cost of one-day's war—the ancient Coventry town, which became the hub of midlands industry, will be transformed into one of England's show-places.

The medieval legacy of narrow, crooked streets and lack of open space will be gone; and so will the incoherent mass of poor houses which grew up among the dingy factories, legacy of the 19th century.

The bulk of the United States asbestos supply comes from Canada.

## Advance In Science

Very Soon Hot Dog Will Be Cooked By Electronics

Science is now putting the heat on the hot-dog.

Pretty soon, you'll be able to step up, plunk your dime into a slot, pull the lever and walk away with a hot-dog cooked from the inside out.

It will come blanketed in a nice hot crisp roll, also cooked from the inside out.

All you'll have to do is later on your own mustard.

This represents a tremendous stride in modern science.

We've heard a lot of talk about civilization entering the atomic age. Well, the hot-dog is keeping proudly apace. For the new hot-dog is cooked by electronics—which is just next door to radar.

The electronic hot-dog is a gadget that looks a lot like a juke-box.

## OUR COMPLETE SHORT STORY—

## LOVE AND LIPSTICK

By LYNN TIGHE

Copyright Wheeler Newspaper Syndicate

HER eyes were green, accentuated by upturned lashes exactly the shade of her hairish mahogany hair. It was rolled high in front, looped low on the nape of her neck. Her complexion was all that an advertising writer might claim for his pet cosmetic agent. Yes, Rena Shelton was a beauty.

But a girl selling beauty products such as rouge and powder, eye-shadow and lipstick in a giant New York department store would have to be all that. Competition in the cosmetic business is fierce and so was competition in love. Rena had learned something of competition in love when she fell for Jack Crops, a handsome young man the day assigned to traffic duty on the corner near which she lived.

One icy morning, Rena slipped on the street, was terrified as traffic skidded about her. She might have been killed except that Jack was there to halt a truck thundering in her direction.

Her knees were bruised and cut, and the hand with which she tried to relieve her purse was bleeding. Jack insisted on calling an ambulance.

"Better get those cuts cleaned up properly. No use taking a chance on infection."

In the course of his duty, Officer Crops got all the facts concerning his charge. Name, address, age, occupation, married or single.

He said, "I'll look in on you later. Just to make sure you're okay. My name is Crops—Jack Crops," he added.

THAT evening as Rena lay in bed at home in the apartment she shared with Flo, a package arrived from the florist, American Beauties. The card said: "With My Heart In Beside Them."

Later Jack Crops called in person, and sat by her bedside. He had brought a container of soup and a ready-cooked chicken. When Flo came in from work she joined the feast.

A mutual love and admiration swept Rena and Jack rapidly toward the altar. He was sweet, generous and understanding, the most attractive man she'd ever known. She was not a little annoyed to discover that other women found Jack attractive, too.

Rena knew herself to be the possessive type and she wondered if she could gracefully accept this sort of thing through years as his wife. Women favored upon him. There was the night of the Policeman's Ball, when that Park Avenue girl draped herself about him as they danced and, then, as they were caught in the spotlight, kissed him squarely on the mouth.

Rena saw it and also saw red. When Jack took her home she said, "If there's anything in the world I despise, it's a philandering man."

Jack laughed. "With that spoiled little trait? No one takes her seriously. Too much money and man-mad."

"Look at you," continued Rena, felly. "Covered with lipstick! If anything like this ever happens again, we're through!"

"You're jealous, sugar," chuckled Jack. "And do I love it."

The evening ended happily.

BUT there was more lipstick in Jack's life. Lipstick which wasn't Rena's. Returning from work one night, tired, cross, Rena found a note from Jack, stuck in a bundle at her door.

"Darling," it said, "I've asked one of the fellows to bring up my shirt and leave it at your door. Would you try to get the lipstick off it for me? I'm worried about it, because it's the initial one you gave me for my birthday. I know that had news travels fast, but don't worry about me. I'll phone you later."

Oh, he would, would he? Of all the crust—asking her to clean his lipstick! What? Rena stormed. Clean it? She'd clean him right out of her life!

When Flo entered a little later, Rena was frothing with fury. She paced the floor, saying the offending shirt as a red rag before the bull.

"What would you do to a man like that?" she demanded of Flo. "A guy who'd dare ask you to clean another woman's lipstick off his shirt? What would you do?" she screamed.

Flo shrugged. She said, "Lipstick. Haven't you read about it in the paper? Jack's in hospital, beaten up. The Lipstick Killer turned up again today on the East Side. It was a terrible fight, but Jack won, thank Heaven!"

Rena looked at the shirt as though it had suddenly turned to gold. She clutched it to her. "And I didn't even know," she whispered. "Get me a cab, Flo. Hurry. Call the florist. Order a dozen roses. American Beauties. Have them ready. I'll pick them up on my way in a minute. Hurry, Flo!"

She dashed for her hat and coat. Flo followed orders. "Steady, darling," she said when Rena was about to dash out the door. "Here's something else. A card to enclose with the roses. I knew you were too shaky to write so I've done it for you."

She snatched the card. It read: "With My Heart In Beside Them."

"Thanks, darling," Rena called back over her shoulder. With my heart in beside them? As if Jack didn't know!

## SMILE AWHILE

"Why does the giraffe have such a long neck?"

"Because the head is so far away from the body."

"You do keep your car well cleaned."

"It's only fair. My car keeps me well cleaned."

Dodd—I notice that in telling about that fish you caught you vary the size for different listeners.

Roddy—Yes. I never tell a man more than I think he'll believe.

"Isn't it terrible! I've waited here since 5 o'clock for my husband and now it's half-past six."

"And when were you supposed to meet him?"

"Four o'clock."

Said the vicar's wife: "I hear that you won a vacuum cleaner in the raffle, Mrs. Potts."

"Yes, ma'am," replied Mrs. Potts, "but it's no use to me. I can't get a vacuum."

Mazie: "Do you walk around with a grinch?"

Nellie: "No, dearie. I divorced him."

Customer in drug store: "I want some talcum powder."

Clerk: "Do you want it scented?"

Customer: "No, I'll take it with me."

"Some body has told my wife that I look you to a dinner the other night," said the manager to his secretary.

"Well, what about it?" asked the girl.

"That makes you my former secretary."

"And then," said the man in the witness box, "my wife hit me with an oak leaf."

"Well, that couldn't have hurt you, remarked the magistrate. "Oh, yes, it did, sir. It was from the centre of our dining room table."

A Negro called at the hospital and said: "I called to see how much friend Joe Brown was getting along."

The doctor said: "Why he's getting along fine; he's convalescing now."

"Well," said the Negro, "I'll sit down and wait till he's through."

After examining the proofs of his portrait, the customer got angry. "Do you call this a good likeness?" he stormed. "Have I a squint? Do I look like a prizefighter? I ask you, do you think I look like this picture?"

The photographer, timid and tactful, replied:

"The answer, sir, is in the negative."

Visitor—"And how old are you, Bobbie?"

Bobbie—"I'm just at the awkward age."

Visitor—"Really? And what do you call the awkward age?"

Bobbie—"You too old to cry and too young to swear."

## Food From Canada

Britain Is Grateful For What The People Of Canada Have Done For Them

On the closing day of the 4th Annual Dominion-Provincial Agricultural Conference, held in Ottawa, December 3 to 5, Hon. James G. Gardiner, Dominion Minister of Agriculture read the following message he had just received by cable from Sir Ben Smith, British Minister of Food:

"My best wishes for successful outcome of the Dominion-Provincial Agricultural Conference. Since the conference last year, we in the United Kingdom have passed from a state of war to one of peace but the problem of feeding our people is no easier. For all that you and the people of Canada have done during the war period, and particularly during the past twelve difficult months, to help us in this country we are deeply grateful."

In particular I should like your farmers to know how valuable has been their contribution of wheat, bacon, beef, cheese, eggs and apples during 1945.

"When I spoke to you in October last over the Trans-Atlantic telephone and told you of my great difficulty in maintaining our three-month ration, your ready response and the support we received from your countrymen saved the day. I cannot thank you enough for that help."

"Equally I am specially grateful for the extra quantities of meat which Canada has supplied as result of the self-sacrifice which she imposed on their own consumption."

"Although the fighting is over the battle of food continues. Europe and other war devastated areas are still in great need of assistance. Only by maintaining agricultural output at a high level during the coming year can needs be met. I hope that Canada will continue to ship to the United Kingdom such quantities of food as we shall need to maintain, and so far as circumstances make possible, improve the meagre amount of food consumption which we have accepted during the past six years."

## Must Warn World

Of The Unspeakable Dangers From Use Of Atomic Bomb

Physicist Albert Einstein said in New York that the scientists who produced the atomic bomb must warn the world of the "unspeakable disaster" which will take place unless nations change their attitudes toward each other.

Einstein told the fifth annual Nobel anniversary dinner in a transcribed speech that the atomic bomb disaster was "harassed by an equal feeling of responsibility, not to say guilt."

The American and British people as "fighters of peace and liberty" were made trustees of the bomb, he said.

"But so far, we fail to see any guarantee of peace," he said, "we do not see any guarantee of the free world that must be maintained to the nations in the Atlantic Charter."

## Victims Of War

Thousands Of Children Without Parents Wander In Ruins In Germany Cities

Thousands of hungry, half-clad children left without parents or homes are the most pathetic innocent victims of Hitler's war.

You see them everywhere in the larger German cities—white-faced, gaunt-eyed ghosts wandering aimless ruins, living by their wits until youth aid organizations find them.

It is officially estimated there are 14,000 homeless children in Munich alone. Many lost both parents in the war. Some of the youngest do not even know their names.

♦ Most of Alberta's exportable wheat is now going to Vancouver to meet the demands from Russia, China and South America, and probably wheat will go to Britain from this port later on. Grain sent to the west was shipped in bulk, but Russia and other trans-Pacific nations now request that it shall be sacked. Sacking equipment at terminal elevators have therefore been installed.

♦ More than 300 people, representing all classes of population, are taking night courses which include English, Spanish, drawing, painting, sewing, weaving and cooking in Arvida, Que. It is known as "University of the North" and came through the efforts of citizens, Catholic and Protestant school authorities and industry. Admission fees are low. This is really something worth while.

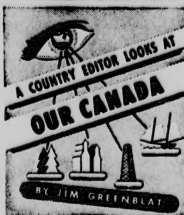

♦ According to the Peace River Black News, an old-time hunter returned from a 10-day hunting excursion in the great north, and says moose, caribou and deer, once plentiful is becoming extinct as well as other wild life. Once fresh and green, he declares.

♦ The burned black wild animals and birds disappearing. He covered about 200 miles on horseback, meeting trappers and Indians, and saw the species, specially mentioning destruction of birds' nests and young perched on bushes.

♦ When T. E. Langraff of Prince Rupert, B.C., brought down a big 50½ ounce mallard, it proved to be the biggest duck bagged during Saskatchewan's first annual duck derby.

A new photoflash bulb produces in 20 thousandths of a second a flash so powerful that it equals the light from a 100-watt incandescent and scintillates.

2652

♦ Uncommon newsletters through Canada. Mr. and Mrs. Edward Cole of Little Lake, Ont., celebrated their 50th wedding anniversary. Both are about 88. ♦ Birthdays. Mrs. Robert Richards, Downsville, Ont., 98; Mrs. Thos. Laughlin, Kirkton, Ont., 91; Gilbert Ties, Dayton, Port Alberni, B.C., 98. Chas. D. Potter of Vermouth, N.S., renewed his subscription to the Herald-Telegram which has been coming to his home as long as he has lived and he's 64. ♦ Showmobiles for bringing children from Thomas' Gore to Lachap, Que., high school capacity 25, has been delivered, and is propelled by a six-cylinder Chrysler motor. ♦ An acute iron shortage in Prince George, B.C. Hospital forced them to put new arrivals in apple boxes, but shorn of this label: "See Grade Unwrapped, Grown in Okanagan Valley," and it worked out nicely. ♦ A flock of Hungarian partridge swooped down, hurled to death against a C.N.R. engine near Viking, Alta., but one deer struck Engineer McMillan in the eye and blacked it. While on the run from Vancouver to Bangor, N.B., a bullet crashed through the cab of a locomotive and nearly struck the life of Hazen E. King, who was so close he got a splinter of glass in his face. ♦ For the first time since 1870, George H. Thompson, 82, was incorporated for years ago, there will be a woman on the town council. Mrs. Mary Laurie, 68. ♦ N. Savage of Manitowish, Sask., wanted a particularly large rabbit, failed after several attempts, and came home discouraged. He then heard a loud noise outside his house. A rabbit he wanted. It had trailed him home and was caught in the fence. ♦ Returned from serving as secretary to the Director of Movement, C.I.O. London, Sergeant (Miss) M. Mather came home to Estevan, Sask., and got the job as secretary-treasurer of the town. ♦ Allie Morrison of Homestead district, Manitoba, had 23 turkeys and a dog killed by a marauding dog. He finally got him with a shotgun blast as he leaped his way through the straw roof of a shed to get the remaining gobblers.

♦ At Okanagan Mission, B.C., George Reeves levelled off a mound of sandy soil and came on the skeleton of an Indian, with three Indian axe heads, a hide scraper, flint spear heads and a stone knife-blade. There were no signs of an Indian grave yard, and it is assumed he died fighting and his weapons were buried with him.

♦ Remarkable: Miss Betty Henry, RR2, Bonnaville, Ont., found a naked, day-old orphaned starling. She gave it a loving home, and it has now learned to whistle "Home on the Range," and has been taught to say words. Mrs. Margaret M. Nice has the greatest American authority on bird behavior, has taken an interest in this phenomenon.

♦ Post-war recovery: More than 250,000 men will be absorbed by the mining industry in B.C. during 1946, according to a canvass of mining operators by the provincial department of mines.

♦ Most of this number of men will be men discharged from the armed forces.

♦ Most of Alberta's exportable wheat is now going to Vancouver to meet the demands from Russia, China and South America, and probably wheat will go to Britain from this port later on. Grain sent to the west was shipped in bulk, but Russia and other trans-Pacific nations now request that it shall be sacked.

♦ According to the Peace River Black News, an old-time hunter returned from a 10-day hunting excursion in the great north, and says moose, caribou and deer, once plentiful is becoming extinct as well as other wild life. Once fresh and green, he declares.

♦ The burned black wild animals and birds disappearing. He covered about 200 miles on horseback, meeting trappers and Indians, and saw the species, specially mentioning destruction of birds' nests and young perched on bushes.

Perfectly Legal But Will Written On Bible Is Something Quite Unusual

The first will written on a Bible to be filed at the courthouse in Victoria in the revolution of J. S. Gill, supreme court registrar, has turned up.

Written by an Irishman who resided at White Rock, B.C., the 64-year-old man, his name and his name as Ireland, along with the address of his daughter in Belfast. On the reverse side of the same page, the will giving \$100 to a friend and the remainder of the estate to the daughter in Ireland. It has been filed by two witnesses.

Because the page has not been removed the Bible will be filed.

"We've had some strangely written wills," said Mr. Gill, "but this is the first one we've filed in a Bible."

IN ON HITLER'S LAST RANT—A graphic description of events leading to the "come party" suicide of Hitler in a Reichschancellery bunker has been given Allied counter-intelligence investigators by Capt. Hanna Dotsch, German aviator who flew the last German plane out of Berlin. Hitler, she said, went through the motions of directing a phantom rescue army while Goebbels burst into oratory with all the theatrics of a ham actor. Martin Bormann, storm troops chief, joined Hitler in a suicide pact, she claimed.

RECIPES

BREAKFAST IS A BOWL

Simple breakfasts can be dramatic. They can be light and healthy, proportions, modern first meals of the day have charm and goodness, and a stick-to-the-quality quality that belies their delicate appearance.

Crisp cereal—a favorite breakfast, stand by the country over—comes to even the latest breakfast table served in the grand manner with your favorite canned peaches or other fruit.

Bowls heaping with whole wheat, oats and bananas, and crowned with just a sprinkle of light brown sugar and top milk are a delightful variation of a familiar and favorite breakfast. Light but satisfying, streamlined but nourishing, this is the sort of breakfast mainstay for busy days and busy moderns. This cereal breakfast bowl contributes calcium, iron, phosphorus and several of the vitamins toward the daily nutritional requirements.

## CALCULATIONS

To demonstrate the volume of meat that has been leaving Canada for Europe the Wartime Prices and Trade Board says that bacon hogs shipped from Canada overseas in the month of November alone, if stretched out in a single file, would extend for 225 miles if followed

by the beef cattle shipped during the month the parade would be 66 miles longer, and if by the mutton and lamb, another 30 miles.

In addition, Canada shipped 16 million cans of meat each 3 1/2 inches high and weighing 12 ounces. If these cans were laid end to end they would extend a distance of 609 miles.

## FARM FOR RENT

320 acres all under cultivation, three-year term. Situated 7 miles east of Didsbury on gravel road—to purchaser of the quarter section across the road, with 140 acres under cultivation. House, barn and other buildings.

Price of quarter is \$5000 Cash.

320 acres ten miles east of Didsbury, 196 acres under cultivation. Full set of buildings.

PRICE: \$8500 CASH.

Mr. and Mrs. Lloyd Ringheim of Lehighridge spent a few days last week visiting with friends and relatives in Didsbury.

A letter has been received from Miss Margaret Adshead who has been studying in Toronto for the last four months. She expected to leave January 19th to continue her music in New York.

Mrs. C.R. Liesemer and daughter Mrs. Harry Lawrence, of Bingley, Alta., attended the funeral Thursday of the former's brother, Mr. J. H. Hehn.

Kenneth Burns, W.J. Scheid, C. Dickan, Mr. and Mrs. Frank Jackson, Mrs. W.E. Stiles and Mr. and Mrs. Wm. Coates were all in attendance at the U.F.A. convention in Calgary last week.

## PIONEER FARMER PASSES IN HIS 86TH YEAR

Julius Hehn, 86, died at the Didsbury Municipal Hospital on January 8th following an illness extending over the past year.

Born at Axton, Ont., on Nov. 11, 1859, Mr. Hehn at the age of 21 moved to the State of Kansas where he married Miss Susanna Good. To this union were born a daughter, Pearl, who died in 1943, and a son, Isaac, who died in 1917. These children were preceded by their mother in death.

In 1905 Mr. Hehn married Miss Carrie Siebert. In 1906 they moved to Alberta where he was engaged in farming east of Didsbury until 1929. From that time until his death he lived in Portland, Oregon, and with his son and daughter-in-law, Mr. and Mrs. Lloyd Hayne at Didsbury.

Surviving are his wife and six children, Lloyd of Didsbury, Mrs. Ward Keith of Vancouver, B.C., Mrs. W.A. Miller of Brock, Sask., Orlando with the U.S. armed forces, three brothers, William of St. Jacobs, Ont., John of Axton, Ont., Alfred of Walkerton, Ont., two sisters, Mrs. Emma McLachlin of New Liskeard, and Mrs. C.R. Liesemer of Bingley, Alta.

He was a member of the Evangelical Church since young manhood, and was a devout Christian, taking an interest in the work of the church both in the home land and in foreign missions.

Funeral services were conducted by Rev. A.M. Amacher in the Evangelical church, Didsbury, and burial took place in the local cemetery. Pallbearers were: H. McLean, T. McCale, Ed. Liesemer, Enoch Dawson, J.W. Braun, and Mose Dippel.

## EVANGELICAL CHURCH NOTES

Morning worship will be held on Sunday, Jan. 20th at 10:30 a.m. Sunday School will be held at 11:30 a.m.

Bethel Sunday School will be held at 2 p.m., and church service at 3 p.m.

The Youth Fellowship will have charge of the evening service. Rev. C.J. Ashdown, pastor of Olds Baptist Church, will be the guest speaker. We extend a cordial invitation to all to attend these services.
